

18/06/2020

This week we began to increase the number of pupils attending school. We have planned this to be as safe as possible with a detailed risk assessment approved by the Governing Body and Manchester Local Authority. All staff have attended a training session prior to pupils returning.

We have included on our website resources for families to use with their children to discuss returning to school. Initially we are offering days to families that said they wanted their child to have time in school before the summer break. If any parents or carers now feel ready to reconsider their decision then please contact school.

Bernice Kostick

Head Teacher
