

Salt Dough Rainbow

What

we

are learning

To use primary colours to create a rainbow.

We are also developing our:

Problem Solving

Self Management

Self Belief

Can you name all of the colours in a rainbow?

red

orange

yellow

green

blue

indigo

violet

There are 3 colours known as primary colours.

Red

Yellow

Blue

Primary colours can be mixed together
to make other colours.

What colour would we get if we mixed
Red and Yellow?

Red

Yellow

Orange

What colour would we get if we mixed
Blue and Yellow?

Blue

Yellow

Green

What colour would we get if we mixed
Blue and Red?

Blue

Red

Purple

We are going to make a salt dough rainbow using primary colours to create all of the different colours of the rainbow.

You will need:

1 cup of salt

2 cups of flour

1 cup of water

Mixing bowl

Adults help

Find all of your ingredients and place them on your worktop.

Wash your hands with hot soapy water.

In your bowl add in the flour and salt. Mix them together with your hands.

Using your finger make a hole/well in the middle of your mixture and add in a little bit of water. Mix together.

Add water a little bit at a time until you end up with a dough mixture.

On your worktop sprinkle out some flour. Using your mixture create 9 little dough balls.

Roll each of the dough balls into long sausages.

Begin to mould them into arches to look like a rainbow.

Create a round circle using the palm of your hands with one of the dough balls.

Get an adult to help you with this!
Using a butter knife carve out a cloud shape. You will need 2 clouds
for the ends of the rainbow.

Add on the clouds to the end of your rainbow. You can use some water on your fingers to help it stick together.

Grab a pencil and pierce a hole through the top. Use water on your fingers to mould everything together.

Get an adult to help you with this bit. Place your salt dough rainbow in the oven for 2 hours at about 75 degrees. Keep checking on your salt dough. It will be ready when it is slightly browned and is hard.

Once it is cooked, get an adult to take your salt dough out of the oven and leave it to cool for 1 hour.

You can now paint your salt dough rainbow. Remember to use the primary colours. Mix the primary colours together to create the rest of the colours that you need.

If you create your own salt dough rainbow remember to tweet North Ridge High School or email a photo to:
