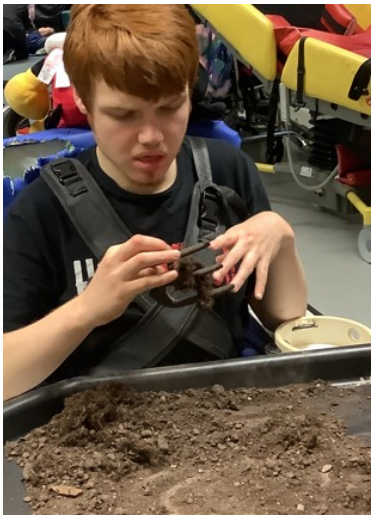
Class Scafell

This term in class Scafell we have been looking at a new sensory story in English, called Noah's Ark. We have made animals using different patterns. We explored the storm and prepared for both the rain and the sun.

In Maths we have been exploring capacity. We have used water and sand to learn about full and not full, and knocked down a giant tower to explore 'big'


In Theme we have been exploring different animals and their habitats. We had great fun creating our own storm and even planted a tree which we will look after just like in our story.
