

Beefeater work experience

This long running work placement offers KS4 pupils the chance to experience what it is like to work in the restaurant industry.

This placement takes place each Thursday at The Beefeater, Heaton Park. Students are exposed to all aspects of the restaurant. Jobs are allocated to students based on interest and ability. If working in the front of house, students will be clearing and laying tables as well as serving food and drink to customers. If they are working in the kitchen, students will be using the industrial dishwasher to clean plates as well as helping to put away food deliveries. Throughout the day they are working alongside the full time staff as well as a teaching assistant.

Our students really enjoy going to the Beefeater. It is wonderful to see their confidence and self-belief increase as they interact with both staff and customers. In fact the hardest part of the day is often getting the students to leave at the end of their shift!
