

Class Discovery!

On a Wednesday morning during our Grow It lessons we have been practicing our safety at the allotment skills. We have been learning what a hazard is and how we can keep safe when out and about.

We made our own safety signs to display in the Poly tunnel at the allotment.

During our Maths lessons we have been learning about money. We have been learning how to identify equivalent values up to £5 using a range of coins.

We have learnt this through practical and paper based activities.
