

Tell us what you think?

SEND Health Hub (COVID-19)

Please email any comments or feedback to:

mft.manchestersendhealthhub@nhs.net

Who are we?

We are a team of health professionals working together to support families affected by the COVID-19 pandemic

We have the following services in our team:

- Occupational Therapy
- Physiotherapy
- Speech and Language Therapy
- Special School Nursing Service
- CAMHS - Clinical Service for Children with Disabilities

What do we do?

We work together with: families, carers, health colleagues and education staff to provide short term, joined up advice and support over telephone or video consultation

We aim to help your family if you are finding that your child's or young person's behaviour challenging, or where there has been a change in your child's needs or abilities, as a result of the pandemic

Who do we see?

Children and young people who attend a Manchester Special School who:

- Have a Manchester GP
- Are experiencing difficulties due to the pandemic

How can you be referred?

- Health care professionals and schools can refer using the referral form
- You can self-refer by sending a self-referral form to the email address below, or by contacting the Hub on 0161 230 0301

For further information, you can contact your Special Needs School Nurse

What will happen?

Following a team discussion we may agree on one or more of the following:

- Contact you for more information
- Liaise with services already involved
- Create a plan of support with input from: therapy, nursing and CAMHS as required
- Referral on to another service

You can then contact us in the future if your child or young person's needs change

How can I contact you?

E-mail the team at: mft.manchestersendhealthhub@nhs.net, contact the Hub on 0161 230 0301 or you can contact your Special Needs School Nurse
