

Class Kilimanjaro & Teide

This half term class Kilimanjaro and Teide have really enjoyed their blended learning. In ASDAN we have been learning about different technology in the home and in our community.

We have been working really hard to show how we can be safe when we are using different appliances. We have practiced using the kettle, microwave, hob, iron, washing machine and vacuum cleaner. We have learnt lots of important life skills and are really excited to keep practicing at home!
