JAMIE OLIVER GOOD FOOD AWARDS – SUSTAINABILITY STARS 2024

Dear Parent/Carers

We are delighted to be able to share with you that our 6th form student led business enterprises have been selected as the Jamie Oliver Good School Food Awards, Sustainability Star winners for 2024.

Our nomination showcased the amazing hard work, dedication and achievements of our 6th form students across all our student led businesses (Plot to Plate, 2nd Handmade, The Plot, Cup & Cake, The Hive, Prom Loan).

Students were delighted with the award and thoroughly enjoyed being interviewed by the Jamie Oliver media team and meeting The Skinny Jean Gardener, Lee Connelly. The students' knowledge and understanding of sustainability was evident in every conversation they had with the team, it was a very proud moment for all concerned.

Please see the links below to the Jamie Oliver Good Food Awards winners page and an article written by About Manchester. We have some other exciting media opportunities which we will keep you updated about as they happen. We hope the media coverage will enhance the work-related opportunities for our students, leading to employment post education.
