## KS4 Film It-Documentaries.

The purpose of Film It is to develop the students creative, technical and communication skills via film making. The emphasis is on the processes the students go through in order to create a film and lessons must be structured in order to facilitate a practical and collaborative working environment. In this module students will focus on adverts, their final project will be to create a short political advert promoting themselves as a candidate in an election.

RRS Articles: This unit of work is linked Article 13 of the UN Convention on the Rights of the Child.

With support (sentence strips / starters) is able to give clear instructions and suggest ideas throughout the planning and recording process.  Is able to independently offer a creative or technical opinion on an issue.  Uses an appropriate voice volume. Is able to listen and consider / evaluate other peoples ideas.  Uses full sentences when communicating.  Is able to plan and produce a short advert (iMovie/Moviemaker) detailing why they should be elected to a specific position (i.e. school council member / MP)	Is able to listen to instructions and if unsure ask for clarification.  Is able to share ideas / give out instructions using full sentences and appropaite volume.  Has the confidence to and is able to clearly raise an issue in regards to the creative and technical processes.  Is able to listen and consider / evaluate other people's ideas.  Is able to plan and produce a short advert (iMovie/Moviemaker) detailing why they should be elected to a specific position (i.e. school council member / MP)

Subject specific knowledge	Understands how to use the editing tools within book creator.  Is able to recall the name of the technique.	Understand the concept of editing and a video editor. Understands how to use basic editing tools within Windows moviemaker.	Understand the concept of editing and a video editor.  Understands how to use basic editing tools within Windows moviemaker.	Understand the concept of editing and a video editor.  Understands how to use basic and advanced editing tools within Windows moviemaker.		
Subject specific skills	Is able to independently edit a piece of video or photograph within her documentary in response to an audio or video instruction.	Is able to follow a differentiated editing checklist to edit a short piece of video (insert and sequence clips, add title, credits, music, splits).	Is able to follow a differentiated editing checklist to edit a short piece of video (insert and sequence clips, add title, credits, music, splits, text overlays, transitions and filters).  Can independently identify and self-correct errors within work.	Is able to follow a differentiated editing checklist to edit a short piece of video (insert and sequence clips, add title, credits, music, splits, text overlays, transitions and filters, fast and slow motion, export, adjust volumes).  Can independently identify and self-correct errors within work.  Displays creative flair when using the editing tools (i.e. playing with parameters).  In regards to editing material, they are able to give a comprehensive explanation of what they are doing, what is happening and why they have chosen to do it (and offer alternative approaches).		
Personal development	Problem solving— Linked to resolving technical and creative issues when planning, recording and editing.  Communication skills— Using full sentences and appropriate to communicate instructions and ideas, listening and responding appropriately to other peoples ideas.  Self-belief— Never giving up if unable to resolve the issues, continue to ask, listen and try different solutions.  Self-management— Linked to managing equipment and planning and executing a project.					

## Suggested activities

# P5-L3

- -Drama based response to film genres in order to embed understanding of each film.
- -Practice editing short pieces of pre-made video.
- -PowerPoint activates based upon knowledge and understanding (i.e. film genres and storyboarding).

Linked to working in small groups and realising a goal as a group.

- -Prop stories and game starters to encourage imagination and decision-making.
- -Reading and interpreting storyboards.
- -Recording pieces of video to match a given brief (object and camera angle).
- -Research projects based upon subject matter of documentary.
- -Presentations based upon research and planning.
